Tipologie di rivestimento

Un pannello rigido imbottito dà forma a uno schienale che accoglie i morbidi cuscini di Shaal.
Shaal è disponibile nelle tradizionali versioni monomateriale che prevedono il medesimo rivestimento per il pannello che avvolge il divano e per la sua parte interna composta dai cuscini della seduta e dello schienale.
Inoltre per esaltare ulteriormente la ricercatezza dell'incontro tra questi due elementi sono state pensate 5 versioni speciali, che permettono di abbinare materiali differenti in specifiche combinazioni studiate appositamente.
